RIDE Technical Assistance to AE Programs

RIDE Adult Education staff support programs in the following areas:

Fiscal: Development and monitoring of program budgets and design and alignment of program components. Compliance with federal and state fiscal statutes as well as RIDE fiscal protocols. Adult Education fiscal program documentation requirements and recommended procedures.

Data: Working with CALIS and NRS performance standards and program statistics. Conducting NRS Data Quality Standards self-assessment checklist.

Evaluation/Monitoring: Looking at program structures and systems with quantitative and qualitative measures. Compliance with federal and state statutes as well as RIDE protocols.

Reporting: Assisting programs with communicating progress toward program objectives in the priority areas. Support in addressing challenges or barriers which affect program implementation and identifying emerging or promising practices. Assisting with identifying technical assistance and professional development needs.

Requests for TA…

✧ We ask that programs inform RIDE staff of technical assistance needs via the *quarterly reports*. We also *encourage* program staff to share this information in other settings or via other means as appropriate to them.

✧ Technical assistance can be provided in general sessions and be open to all RI program staff or customized and provided individually to programs/groups as appropriate and as time allows.
